Scholarship establishes a new field of study in the organizational sciences. Just as positive psychology focuses on exploring optimal individual psychological states rather than pathological ones, Positive Organizational Scholarship focuses attention on optimal organizational states --- the dynamics in organizations that lead to the development of human strength, foster resiliency in employees, make healing, restoration, and reconciliation possible, and cultivate extraordinary individual and organizational performance. While the concept of positive organizational scholarship encompasses the examination of typical and even dysfunctional patterns of behavior, it emphasizes positive deviance from expected patterns. Positive Organizational Scholarship examines the enablers, motivations, and effects associated with remarkably positive phenomena --- how they are facilitated, why they work, how they can be identified, and how researchers and managers can capitalize on them. The contributors do not adopt one particular theory or framework but draw from the full spectrum of organizational theories to understand, explain, and predict the occurrence, causes, and consequences of positivity. Positive Organizational Scholarship rigorously seeks to understand what represents the best of the human condition based on scholarly research and theory. This book invites organizational scholars to build upon and extend the positive organizational phenomena being examined. It provides the definitional, theoretical, and empirical foundations for what will become a cumulative body of enduring work.

The old lady on this train is looking at me, staring at me, she's been doing it since New Eltham, I can feel her eyes on the sweat on my neck. I turn to catch her out, and she flicks her head back to her book, like she's subtle, but she ain't. I wish she'd just punch me, y'know? The punch I can take, but the look . . . all these frightened half-glances they . . . they just . . . When a violent encounter leads to a whirlwind romance, young Rahul is more than willing to be caught up. But in the aftermath of 7/7, his world changes in ways he cannot control, drawing him into ever-darker places as he struggles to remain part of a British society that now distrusts him on sight. Sweeping between the paranoid London of 2005 and the euphoric city of the 2012 Olympics, HighTide Escalator writer Vinay Patel's debut play is an honest, humorous, hopeful play about wanting to love and be loved. By your crush. By your friends. By your country. True Brits received its world premiere on 31 July 2014 at the Assembly Hall, Baitlie Room, Edinburgh.

School refusal affects up to 5% of children and is a complex and stressful issue for the child, their family and school. The more time a child is away from school, the more difficult it is for the child to resume normal school life. If school refusal becomes an ongoing issue it can negatively impact the child's social and educational development. Psychologist Joanne Garfi spends most of her working life assisting parents, teachers, school counsellors, caseworkers, and community policing officers on how best to deal with school refusal. Now her experiences and expertise are available in this easy-to-read practical book. Overcoming School Refusal helps readers understand this complex issue by explaining exactly what school refusal is and provides them with a range of strategies they can use to assist children in returning to school. Areas covered include: | types of school refusers | why children refuse to go to school | symptoms | short term and long term consequences | accurate assessment | treatment options | what parents can do | what schools can do | dealing with anxious high achievers | how to help children on the autism spectrum with school refusal

This book casts a new light on the role of Southeast Asia in the ancient Indian Ocean World. It brings together data and approaches from archaeology and historical linguistics with the aim to reconstruct premodern cultural and language contact between Southeast Asia and South Asia, East Africa and the Middle East. The interdisciplinary approach employed in this study reveals that insular Southeast Asian seafarers, traders and settlers had left their imprint on these parts of the world through the transmission of numerous biological and cultural items. It is further demonstrated that the words used to designate these commodities often contain clues about the precise ethnolinguistic communities involved in their transoceanic dispersal. Cumulatively, this study underlines that the analysis of lexical data is a strong tool to reconstruct interethnic contact, particularly in preliterate societies. Throughout the Indian Ocean World, Southeast Asian products and concepts were mainly dispersed by Malayspeaking communities, although others played a role as well.

These seven imaginative short theatre pieces by one of America's most inventive and highly regarded playwrights range widely in content, mood and style. The plays offer a stimulating challenge in terms of selecting, arranging, and mounting the diverse com

Fantasy sport has become big business. Recent estimates suggest that there as many as 33 million fantasy sport participants in the US alone, spending \$3bn annually, with many millions more around the world. This is the first in-depth study of fantasy sport as a cultural and social phenomenon and a significant and growing component of the contemporary sports economy. This book presents an overview of the history of fantasy sport and its close connection to innovations in sports media. Drawing on extensive empirical research, it offers an analysis of the demographics of fantasy sport, the motivations of fantasy sport players and their significance as heavy consumers of sport media and as ultra-fans. It also draws cross-cultural comparisons between fantasy sport players in the US, UK, Europe and beyond. The Fantasy Sport Industry examines the key commercial and media stakeholders in the production and development of fantasy sport, and points to new directions for the fantasy sport industry within modern sport business. It is therefore, fascinating reading for any student, scholar or professional with an interest in sports media, sports business, fandom, the relationship between sport and society, or cultural studies.

If there is somebody you have longed for, the magic in this book can bring that person to you. If you want casual sex with lots of attractive people, the magic here works. If you're looking for true love and you think you've found the one, this magic can set the wheels of passion in motion. True seduction is the art of attracting the people who will please you most, sexually and emotionally. At its best, seduction is also a gift to the one you seduce.
